EDUCATION

K.R. Mangalam University, Gurugram, India

Bachelor of Technology in Computer Science & Engineering

2023 – Present

C.D. International School, Gurugram, India

Class XIIth (CBSE, PCM) 85%

2022 – 23

Class Xth (CBSE) 95%

2020 – 21

TECHNICAL SKILLS

- **Languages:** C++, Python, JavaScript
- **Backend:** Node.js, Express
- **Database:** MongoDB, MySQL
- **Frontend:** React (basic)
- **Tools:** Git, GitHub, Firebase
- **Core CS:** DSA, OOP, DBMS, Computer Networks

CERTIFICATIONS

- **Oracle AI Foundations Associate — Oracle**
 - Gained foundational knowledge of Artificial Intelligence concepts including Machine Learning, Deep Learning, and Generative AI.
 - Learned practical applications of AI in real-world scenarios and Oracle Cloud AI services.

PROJECTS

AI GitHub Analyzer

2026

- Built a backend system to analyze GitHub repositories using AI and custom scoring logic, evaluating **code quality, structure, and best practices**.
- Integrated GitHub API to fetch repository data (README, file structure), processing **100+ repositories** during testing.
- Designed a weighted scoring engine to generate an **interview readiness score**, improving evaluation consistency by **40%** over raw AI output.
- Implemented secure authentication using JWT and bcrypt, supporting **multi-user analysis tracking** with history stored in MongoDB.
- Optimized API performance and added rate limiting, ensuring stable handling of **100+ requests/min** without failure.

VendorSetu

2025

- Engineered a platform enabling vendors to purchase affordable and verified food supplies, onboarding **20+ test users** during initial deployment.
- Architected backend services using Node.js, Express, and MongoDB, supporting **50+ product listings** with efficient CRUD operations.
- Established JWT-based authentication and optimized RESTful APIs, reducing average response time by **25%** through query optimization and indexing.

Campus Learn

2025

- Developed a Hybrid RAG-based academic assistant enabling students to get syllabus-based answers from faculty-uploaded notes, tested with **30+ users**.
- Processed and indexed **100+ academic documents** using vector embeddings for efficient semantic retrieval.
- Improved answer relevance by **35%** compared to direct LLM responses through retrieval-augmented generation.

DATA STRUCTURES & ALGORITHMS

- Solved **210+ problems** on LeetCode (**Max Rating: 1653**, 100 Days Badge).
- Solved **90+ problems** on Codeforces (**Max Rating: 1066**).
- Participated in **15+ coding contests** across LeetCode and Codeforces.
